

Formstack Submission For: [CRIN Matchmaking support](#)

Submitted at 05/19/21 2:23 PM

Name: Max Chernetsov

Email: max.chernetsov@seeda.ca

Are you a member of CRIN?: Yes

1. What type of organization are you looking to be matched with?: Oil and gas producer

2. Please provide a brief description of your organization:

SeeRem (www.seerem.com) is a division of SEEDA (www.seeda.dev), a company that offers engineering and project management services assisting clients in the successful and sustainable execution of projects. SEEDA associates have many years of experience executing Oil & Gas, Mining, Petrochemical, Pipeline, Infrastructure, Power Generation, and Water Treatment projects. SEEDA offers a new perspective to design and operations to reduce the environmental footprint of any project with a positive impact on the costs and socio-economics to create long-term value.

3. Please provide a brief description of your proposed project:

SeeRem is a mobile and web application for producer organizations, developed to improve the productivity of the company by connecting staff to the work sites in a fast and convenient way. The application allows a company's staff to locate devices, classify users, and make instant connections. The SeeRem application further supports connections in a wide range of locations. Our SeeRem technology is designed to improve work sites visibility in an inexpensive and real-time manner.

5. Which focus area(s) are you looking to address or collaborate on?:

Operational excellence and efficiency
Capital project execution

6. Briefly describe what type of support you need from a producer partner (e.g. field test site, technical expertise, resources etc.):

We are looking to partner with a producer organization for a grant application and field testing.

7. Briefly describe the skills and services you are able to offer as a partner/collaborator :

We will share our expertise and technologies to improve our partner operational excellence and efficiency, and capital project execution.

8. What test or research is required to most cost effectively reduce technical or economic uncertainty and/or prove important features/benefits of your technology?:

Field testing and early adopters.

9. Have you already connected with, pitched to, or been introduced to any oil land gas producer partners regarding this project?:

This is work in progress.

10. Is there any additional information you would like to share to assist us in matchmaking?:

SeeRem will empower companies with more efficient access to vital project information, safe and fast communication with team personnel, and access to remote cameras, allowing for site checks and project overseeing from afar. The application can be accessed on smart devices in different areas to allow staff to connect visually with the work sites.

By registering my interest, I accept that the information submitted in this form will be used by the Clean Resource Innovation Network, and MaRS for the purpose of the CRIN Digital Oil and Gas Technology Competition, including the

Yes, I am interested in matchmaking support

posting a project summary on the CRIN
