

## Formstack Submission For: [CRIN Matchmaking support](#)

Submitted at 05/28/21 3:36 PM

<b>Name:</b>	Jeff LaFrenz
<b>Email:</b>	<a href="mailto:jeff.lafrenz@vizworx.com">jeff.lafrenz@vizworx.com</a>
<b>Are you a member of CRIN?:</b>	Yes
<b>1. What type of organization are you looking to be matched with?:</b>	Oil and gas producer
<b>2. Please provide a brief description of your organization:</b>	VizworX creates enterprise digital experience solutions that enable organizations in a variety of industries (including O&G) to better realize the value of their data.
<b>3. Please provide a brief description of your proposed project:</b>	VizworX has developed a Virtual Operations Environment (VOE) Framework for next generation control rooms. It can be used for remote engagement, improved training, and operational improvements.
<b>5. Which focus area(s) are you looking to address or collaborate on?:</b>	Environmental monitoring Operational excellence and efficiency Health and safety
<b>6. Briefly describe what type of support you need from a producer partner (e.g. field test site, technical expertise, resources etc.):</b>	We are looking for a producer partner who would be interested in working with us to implement a version of our VOE in support of their training/operational needs around control centres.

---

**7. Briefly describe the skills and services you are able to offer as a partner/collaborator :**

We are experts in the development of advanced software solutions to enable organizations to get increased value out of their data. Our VOE framework is an example of the leading edge software solutions we create for our markets and clients.

**8. What test or research is required to most cost effectively reduce technical or economic uncertainty and/or prove important features/benefits of your technology?:**

Engaging with an end user client to ensure that explicit operational needs are incorporated into the continued evolution of VOE is the biggest value as it will reduce both technical and economic uncertainty for the final solution.

**9. Have you already connected with, pitched to, or been introduced to any oil land gas producer partners regarding this project?:**

We have reached out to CNRL, Suncor, Syncrude, and Imperial about this project. However, we have not yet had any detailed discussions with any of them.

**10. Is there any additional information you would like to share to assist us in matchmaking?:**

We also have another product, Panoptica, which supports infrastructure design review and fabrication. It saves clients millions of dollars in construction rework costs, while improving the overall facility operational efficiency and safety. Our subsidiary, EnsureworX (ensureworx.com), is commercializing this technology.

The focus areas for this technology are both Operational excellence and efficiency, Capital project execution and Health and Safety.

We would be interested in talking

---

with producers about either or both these products.

**By registering my interest, I accept that the information submitted in this form will be used by the Clean Resource Innovation Network, and MaRS for the purpose of the CRIN Digital Oil and Gas Technology Competition, including the posting a project summary on the CRIN website for producers to view.:**

Yes, I am interested in matchmaking support
